SATURDAY MORNING, OCT. 5, 1861.

THE WEEKLY OREGONIAN.

THE WEEKLY OREGONIAN will be published this morning.

It will contain the latest telegraphic news from the East and California, a selection of the best articles appearing in the DAILY OREGONIAN, and the most copious Commercial information published by any paper in the State.

The average amount of reading matter in the WEEKLY OREGONIAN is greater than that published by any other paper in Oregon; and in the particular of Commercial statistics we aim to make it the most reliable, more especially in regard to that which pertains to Oregon interests.

It will be mailed to order for 12½ cents per copy, or $3 per annum, to any part of the United States or British Columbia.

HENRY L. PITTOCK.

What our Farmers Want.

The farmers of this Valley can raise large quantities of produce. They have now much wheat on hand. In a month they will have much pork for sale; and at all times they have beef cattle, and many of them sheep for mutton that they would be glad to dispose of at fair prices.

What our farmers want is a market. Portland is their great shipping port, which their produce must reach before it is sent abroad, or into the upper country. At this time, when it will not pay the cost of hauling it to this point from any considerable distance up the valley; and it cannot be brought down by steamboats, because the water is so low that they cannot run, and even if they were running, the mass of our farmers cannot raise the means to pay the cost of transportation—which costs are so great, that it would be a doubtful piece of economy for farmers to send off their wheat at all.

Altogether, our farmers seem to be in the worst possible condition. They have wheat, but the costs of getting it to market will take a good part of its value, when it reaches market.

What is to be done? What do the farmers need?

We answer, in the first place, a cheap way of getting to market. We have already spoken of a canal at Oregon City, which would enable farmers at small cost, to bring down their produce to Portland on flatboats. These flatboats they could build themselves, work them themselves, and when they should discharge their loading at Portland, sell them without much loss. If boat-loads of wheat were to arrive here in this way, it would find purchasers, and so we could say of other articles of produce—oats, barley, butter, cheese, apples, potatoes, &c. Many valuable articles, in this case, would be brought down from the upper country to Portland, which are now, for want of such facilities, almost lost to the farmer and to the country.

Such a canal is not likely to be made—but a work, of some kind, to pass down flatboats, can be made at the new ware-house now building at the Falls, at a very moderate expense.

What a blessing and advantage would such a work be to the country above and below the Falls? It would triple the amount of produce brought to market; it would enable the farmers to bring their own produce to market; it would fill their pockets with money; it would greatly stimulate commerce and trade; it would pay the cost of such improvement every year, rendering it certain to produce a large and constantly increasing income to the owners.

The farmers want more. They want to assist in supplying the immense population which will soon be in the upper country, with food. They cannot do this under the present—they can now pack flour on horses to Walla Walla as cheap as they send it by the boats. cost of transportation up the river. But they cannot have the trade of the upper waters of the Columbia, at the present rate of freights.

It is hoped that in view of all the circumstances of the case, such a tariff of freights will be fixed upon for the produce of this valley sent up the river, as will secure the market for our people and stimulate production here.

Cheap freights secure an increase of business; cheap fares greatly increase the amount of travel; and both add to the profits of freight and passenger business.

We would be glad to have the matters referred to in this article engage the attention of those whom they concern. It is important to the country that farmers should be encouraged in their business. When they prosper, it has been said a thousand times, and with truth, all other branches of business and professions also prosper.

Oregon Agricultural State Fair.

PLOWING IMPLEMENTS AND MACHINERY.

These articles come under the name of class 4. The collection on the ground was principally of the manufactures outside of the State; but there were specimens from makers in this State. Taken together, they comprised a fine assortment of agricultural implements of practical utility. The plowing-match to come off on the fourth day of the Fair is subjected to the decision of the Committee on this class.

GRAINS, SEEDS, &c.

There is a very full exhibit of Grains and Seeds, and pretty much all the premiums to be awarded of these articles will be competed for.

Fourth Day.

Notwithstanding that yesterday was the last day of the Fair, the number of visitors from Portland was not so great as the day before; but the proportion of ladies was much greater. The first thing on the list of the day's exercises was the plowing-match, to which there were two entries. The ground was very dry, and, as far as we could judge, not uniform. The furrows were very shallow, but the "lands" were struck out with great exactness. During the forenoon the premium horses were led around the circle in the Fair Grounds; and in the afternoon the premium cattle were similarly displayed. During the day the distribution of premiums was going on quite briskly. All that gentlemen and ladies had to do was to walk up to the clerk and get their premiums, but the diplomas are not ready yet.

The display of equestrianism by ladies and gentlemen, was the last thing on the list. The prizes were for best, large silver medal; second, medium silver medal. There were sixteen lady competitors, and thirteen gentlemen. There was not an inferior rider among them, and some of the ladies rode with perfect grace. The blue ribbon, which goes with the first premium, was deservedly conferred on Miss Case, of Marion county—a most finished rider; showing all the qualities of ease, nerve, lightness and thorough mastery of her horse. The second premium, with the red ribbon, went to Miss Jackson, and was honestly earned.

Miss Dierdoff and Miss Fanny Knot were the only lady riders from Multnomah. Miss Fanny did not go on the ground to ride; and for one so entirely unpractised, did extremely well and her Portland friends were very proud of her performance. Without exception, any one of the ladies would have been deemed proficients in any country.

Mr. Post of Yamhill took the first premium for gentlemen riders. We did not find out the name of the gentleman who took the second.

The oil painting presented to Mrs. Gen. H. Williams in the report of a previous day, is by Mrs. D. W. Williams.

ARRIVAL OF THE JAMES.—The steamer *James* brought down $25,000 in dust through Tracy & Co., besides a quantity in the hands of passengers.

We learn by this arrival that the four Indians who were arrested some time since for the murder of Mr. Briggs and son, near Barlow's Gate, were tried and convicted for the offence in the Wasco county circuit court, and Judge Waite sentenced them to be hung on the 8th day of November next.

It is remarked that participating in or aiding the financial schemes South we do not find the names of Aiken, of South Carolina, the wealthiest man in his State, nor that of Soule, of Louisiana, a great property holder, nor that of the proprietor of Thomas, the owner of ten thousand acres, nor many, many others.

CAUSE.—The Victoria papers have, of late, evidently been seized with the "Chrl Mania." The mails are full with the article from white gentlemen and colored gentleman, in regard to the right of the latter to privileged seats in the Royal Theatre.

The illness of ex-President Buchanan is said to have been caused by sheer exhaustion. He daily receives letters by the bushel, full of bitter denunciation.

Further Details of Eastern News.

WASHINGTON, Sept. 12.—Adjutant-General Thomas has decided that under no circumstances whatever will soldiers be discharged from the army on the allegation that they are minors when they enlisted.

Of the sixty-two prisoners confined at Fort Lafayette, every one but three have been found guilty of treason, for which they were arrested.

Col. Rankin, a member of the Canadian Parliament, a few days since obtained power to raise a regiment of 1,000 lancers, and to arm and equip them, like the sixteenth English Lancers, with sabers, carbines, pistols, and a lance, the shaft of which is to be ten feet long, and the blade fourteen inches. The rendezvous will be at Detroit. They will be in the field by December, and be commanded by experienced officers.

FORT MONROE, Sept. 11th.—In view of the increasing importance of Fortress Monroe as a basis of offensive operations against the rebels, there is to be a large increase of the military and naval forces.

There was heavy firing this morning on Sewell's Point. The Confederates were trying the range of their guns. A deserter states that the Confederate forces there number about 2,000.

Quartermaster Talmage is making arrangements to quarter contraband slaves on Old Point, in comfortable wooden barracks outside of Fortress Monroe.

PLEASANT HILL, (Md.,) Sept. 12th.—Firing was heard on Sunday in the direction of Conrad's Ferry. Our pickets discovered rebel cavalry encamped about two miles from the river, and Capt. Tompkins, of the Rhode Island Battery, threw about twenty shells in the vicinity of the encampment. Every preparation has been made to give the rebels a warm reception, should they make the attempt to cross between Great Falls and Point of Rocks, with a view of marching on Baltimore simultaneously with their threatened attack on Washington.

NEW YORK, Sept. 12th.—Captain Atkinson, of the bark Venus, from Curacoa, reports that the Venezuelan Consul at Curacoa had received advices from Venezuela of August 27th that the privateer Sumter had gone ashore on the Island of Trindad, Port of Spain, about the 20th, and was a total wreck.

PORTLAND, Sept. 10th.—Nineteen towns, casting two-thirds of the aggregate vote of the State, gave Washburn (Rep.), 39,768; Jamieson, (Union Dem.), 15,178; Dana (Peace Dem.), 12,140—majority for Washburn, 11,347, against 12,972 in the same towns last year.

LOUISVILLE, September 12th.—A special dispatch to the *Journal* from Washington, September 11th, says, General McClellan has carried Hall's Hill, losing fifteen killed.

The Evansville *Journal* says the steamer Sue Evans, under command of a gun from that place captured a boat with one thousand barrels of salt destined for the Confederates.

The Richmond *Examiner* says Jeff. Davis has fully recovered from his recent illness as to take an airing in Saturday in a carriage.

WASHINGTON, Sept. 13th.—B. F. Carter, a printer of New York, was this morning ordered to be sent to Fort Lafayette, for printing handbills for the rebels.

General Lander has been assigned a command in the army of the Potomac. He leaves for his command to-morrow.

The *National Zeitung*, a German paper in New York, has been cut off from mail facilities.

WASHINGTON, September 18th.—Alvord, the Superintendent of the Overland Mail route, here, and reports that 1,500 regular mules are on the way from Utah to the East.

The telegram to the Post Office Department from St. Louis says no mails have yet passed over the Hannibal and St. Joseph Railroad, and that the prospect for the renewal of the service on that route is bad.

The Charleston *Mercury* of the 10th says four men of the crew of the Jeff. Davis have been arrested, charged with conspiring to kill the captain and steal the vessel.

Accounts still continue to arrive of the damage to the crops by heavy rains.

The Monticello, *Arkansas*, says cotton in that vicinity has taken a second growth, and will be considerably damaged, and in many instances completely destroyed.

WASHINGTON, Sept. 14th.—The President transmitted the following to Gen. Fremont on the 12th instant, on the subject of Fremont's proclamation. He says: Assuming you being on the ground, you could better judge of the necessity of your position than I could at this distance. On seeing your proclamation of August 30th, I perceive there is a general objection to it—the particular objection being the clause relative to the confiscating of property and the liberation of slaves, objectionable for its non-conformity to the Act of Congress passed on the 6th of last August. I wrote you expressing the wish that you would modify that clause. Your answer expresses the preference that I should make an order for this modification, which I cheerfully do. It is therefore ordered that said clause be modified, held and construed to conform with, and not transcend, the provisions contained in the Act of Congress entitled an Act to confiscate all property used for insurrectionary purposes, and that said Act be published at length with this order.

(Signed) A. LINCOLN.

Attention, Old Jefferson Guards!—You are requested to meet on Saturday, the 5th October, at 7½ o'clock P. M., at the building formerly occupied by W. W. Bates & Co., under the *Oregonian* office, for drilling.

The Medical and Surgical Institute of DR. L. J. CZAPKAY is already secured in a position which places it as well as its proprietor, far above the assaults of envy and professional malice. In the schools of France, the highest prizes are often awarded to practitioners in this department of medical science, and they occupy, with others, an equally lofty position in the profession. Hereof is an illustrious example shining light among the philosophical stars of this age in Europe, and Dr. Czapkay has fully equaled him in this country; as a proof of which, the Philadelphia College of Medicine complimented him with a Diploma, and the honorary adjunct degree. Selecting this as his field of operation, although qualified as a graduate of the University of Pesth, and late Chief Surgeon of the Hungarian Revolutionary army, for many extended labors, Dr. L. J. Czapkay has lent his earnest attention to the cure of chronic and private diseases, in which he has become so great an expert, that he is now regarded as the LEADER in this branch of his profession throughout the United States, and his portrait and biography are published as a matter of interest to their readers in the most exclusive journals. The Doctor's offices are at his Medical and Surgical Institute, on Sacramento street, corner of Leidesdorff, nearly opposite the buildings of the Pacific Mail Steamship Company, San Francisco. We ask particular attention of our readers to the sworn certificates of remarkable cures, in another column of this paper. Persons not wishing to lose time in corresponding, please enclose $10 in their letters, and they will get immediate attention to their cases. Address, L. J. CZAPKAY, M. No man can go down into the dungeon of his experience and hold the torch of truth to all its dark chambers, and hidden cavities and slimy recesses, and not come up with a shudder and a chill, and an earnest cry to heaven for mercy and cleansing.

In allusion to the proposition to allow the cadets at West Point to enter upon active service, a correspondent inquires whether it would not be "letting slip the dogs of war," to turn loose the West Pointers.

A lady asked a gentleman the time of day. He said he kept no watch, and that, in the morning, Chanticleer was his time piece. "I did not know," rejoined the lady, with a serious air, "till now, that the fowl was so accurate a *cronometer*.

Commercial and Financial.

FRIDAY EVENING, Oct. 4.

The only feature worth mentioning of trade for the week past, is an advance in domestics, and a greater promise in Staple groceries. The advices received from the East, report considerable advance in cotton goods; and holders here ask 14 cents for heavy sheetings. All other cotton goods show the advance, though in smaller proportion. Candles are advancing, and range from 28 to 30 cents. There is but little doing in produce. The stock of Flour in market has of late been diminished; but no change has taken place in prices.

D. fifteen hundred and fifty-seven, you made and delivered to him a certain promissory note for the sum of six hundred dollars, payable ten months after date, with interest at the rate of two percent. per month, and at the same time made, executed and delivered a certain mortgage deed upon lots numbered three and four in block number three, in Couch's addition to the City of Portland, in the county aforesaid, as security for the payment of said note; and complainant prays for a decree of foreclosure and for the sale of said mortgaged premises to pay the amount due upon said mortgage, to wit: The sum of six hundred dollars and interest as aforesaid since the twentieth of September, A. D. eighteen hundred and fifty-nine, and for a judgment against you for any balance which may remain unpaid after the application of the proceeds of the sale of said property for the payment of said debt; and you are hereby notified that unless you appear in the Circuit Court of the State of Oregon for the County of Multnomah on the second Monday of November, A. To all those who, from great cause, Secret Habits, Solitude or Nature's laws,

To the Afflicted!

Suffer not when a cure is guaranteed in all stages of secret diseases. Seminal Weakness, Nervous Debility, Syphilis in all its stages, Salacious, Nodal, Gravel, Diabetes, diseases of the Kidneys and Bladder, Rheumatism, Scrofula, Pains in the Bones and Ankles, diseases of the Lungs, Throat, Nose and Skin. Cases upon the Body or Limbs, Cancers, Breast, Epileptic Fits, St. Vitus Dance—and all diseases arising from the indiscretion or disorder of youth, which ruin the constitution, producing Loss of Memory, Loss of Power, Dimness of Vision, with peculiar spots appearing before the eyes, Loss of Sight, Wakefulness, Dyspepsia, Loss of Appetite, Eruptions upon the Face, Pains in the Back and Head, Seminal Irregularities—and all improper discharges of both sexes. It matters not from what cause the disease originated, however long standing or obstinate it may be, the cure is certain, and in a shorter time than a permanent cure can be effected by any other treatment. Even after the disease has baffled the skill of eminent physicians, and resisted all their means of cure. The medicines prescribed are pleasant, without odor, entirely vegetable, causing no sickness, and free from mercury or balsam. During fifteen years of practice in Europe, the Atlantic States and California, I have rescued from the jaws of death many thousands, who, in the last stages of the above-mentioned diseases, had been given up to die by their physicians, who will venture me in promising to the afflicted, who may place themselves under my care, a speedy and permanent cure. Private diseases are the greatest enemies to health, as they are the first cause of consumption, scrofula, and many other diseases, and should be a terror to the human family. A permanent cure is scarcely ever effected—a majority of cases falling into the hands of incompetent persons, who not only fail to cure the disease, but ruin the constitution, filling the system with mercury, which, with the disease within, the sufferer into a rapid consumption. But should the disease and the treatment not cause death speedily, and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the curse of ill is corrupted by a virus which betrays itself in scrofula, sores, ulcers, eruptions and other affections of the skin, eyes, throat and lungs, entailing upon them a brief existence of suffering, and consigning them to an early grave.

Self-abuse is another formidable enemy to health, for not one case in the dread catalogue of human diseases causes so destructive a drain upon the system—drawing its thousands of victims strength in a few years of suffering down to an untimely grave. It destroys the nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of self-abuse, that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices, my patients can be restored to perfect, vigorous health.

In addition to all old diseases of males and females, treated on principles established by fifteen years of practice and supported by thousands of the most remarkable cures.—Medicines, with full directions, sent to any part of the State, Oregon and Washington Territory, by patients communicating their symptoms by letter.

All business or correspondence strictly confidential. Address DR. L. J. CZAPKAY, Medical Institute, Sacramento street, below Montgomery, opposite Pacific Mail Steamship Co's Office, San Francisco.

Remarkable Instance of Medical Relief.

With the view to guard the unfortunate [illegible] into the snares of incompetent quacks, I deem it [illegible] offer this testimony to the merit and skill of Dr. [illegible] and recommend him to all who may stand in need of [illegible] cal advice, being assured by my own experience [illegible] under his care a radical and permanent cure will [illegible]
